

## Solar Attic Fan Components

Model Size	Coverage Area	Airflow Output Equivalent
10 Watts	covers up to 1,000 sq. ft.	1,110 CFM
20 Watts	covers up to 2,000 sq. ft.	1,400 CFM
30 Watts	covers up to 2,500 sq. ft.	1,700 CFM

The ventilation benefits of an Elite Solar Attic Fan can be enjoyed in both the attic and garage.

You can remove heat and harmful fumes without opening the garage door.

### Quality

- Heavy-duty anodized framed solar panels withstand high winds, hail & snow load.
- Rust proof, strong and durable 1100-O aluminum components.
- A unique one piece seamless flashing for additional protection against leaks.
- Thoroughly engineered louver ring maximizes airflow and provides a bug proof seal.
- Quiet inaudible ventilation provided by 5 wing, 14" precision balanced fan blade.
- Hurricane tested & approved.
- Durable, high performance 38.2 VDC brush style motor with optional pre-set thermostat.
- Limited Lifetime Warranty.

## Hurricane Wind Zones

Elite Solar Attic Fans are tested & approved for hurricane wind zones.

## Your Daylighting and Ventilation Solution

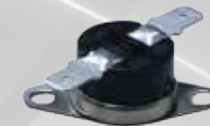

### Ideal for

- Attics
- Garages
- Sheds
- Dog houses
- Storage units
- Barns
- Warehouses
- And more

### Optional Accessories

#### Thermostat (pre-set)

- Fan turns at 85°F & off at 67°F.
- Extends life of motor.
- Popular in cold climates.

#### Aluminum Skirt

Protects against leaks & highly recommended for tile roofs.

#### Garage Exhaust Vent Kit

Converts the 20W & 30W fan into a garage exhaust vent. Cools by removing both hot air & harmful fumes.

#### Kits includes:

**Roof Adapter** - (not pictured) aluminum ring attaches to flexible tube.

**Flexible Tube** - 8 ft duct, mylar film exterior & galvanized core.

**Ceiling Kit** - aluminum powder coated white ring & mesh screen.

### Benefits

100% solar powered ventilation system for attic and garage.

Qualifies for federal tax credits on unit cost and installation.

Extends life of roof by preventing damage from stagnant hot air and moisture accumulation.

Lowers electricity costs by reducing A/C load and makes living spaces noticeably cooler.

Safeguards your home and health by preventing growth of toxic mold and mildew.

Extends life of insulation and makes it more effective at reducing heat transfer into your home.

### Solar Attic Fan Options

Adjustable (Most Popular)	Recessed (Most Compact)	Remote (Most Flexibility)
Installation Location on Roof		
North East West	South	Solar panel installed in a different location from fan.

### Mount Options

Solar Attic Fans		Alternative Fans	
Roof	Curb	Gable	Ceiling/Wall
Most popular & efficient.	For new/ existing built up curb.	For use on existing gables, with remote solar panel.	For use as a whole house fan, with remote solar panel.

#### Fire Damper

- Prevents fire from spreading & meets fire building codes.
- UL listed fusible link melts at 212°F & closes damper.
- Available for Garage Exhaust Vent Kit & Ceiling/Wall Mount.
