

Tubular Skylights Boost Energy Efficiency in Offices and Warehouses

Illuminate Your Commercial Space with Tubular Skylights

- Natural daylight creates a brighter and more stimulating work environment, increasing employee productivity.
- Reduced reliance on artificial lighting lowers energy bills, contributing to cost savings and environmental sustainability.
- In retail spaces, improved lighting enhances product visibility, attracting more customers and ultimately increasing sales and revenue.
- Access to natural light promotes employee well-being, reducing stress and fostering a healthier workplace.
- Tubular skylights can be installed in various commercial spaces and on different roof types, making them adaptable to diverse building configurations.

Brighten Your Workspace

Tubular Skylights

3 Roof Flashing Options:
Curb Mount (pictured),
Flat, & Pitched

Our commercial tubular skylights offer businesses the flexibility to introduce natural light into their spaces, regardless of their roofing system, including BUR (Built Up Roof), Foam, Metal, TPO, and even Green Roofs.

Spaces for Savings & Comfort

Increase Productivity and Sales in Your Commercial Building With Skylights

Unlock the Potential of Your Commercial Space

Are you ready to transform your commercial building into a brighter, more productive, and sales-boosting environment? Look no further than our Tubular Skylights designed for commercial spaces. With versatility that spans across various areas and roof types, these skylights are the ultimate solution for a brighter, more inviting atmosphere.

You can trust our skylights to integrate seamlessly with your existing structure, ensuring worry-free installation and performance.

Tubular Skylights are ideal for:

- Warehouses
- Offices
- Conference Rooms
- Lobbies
- Bathrooms
- Retail Spaces
- Storage Areas
- And more...

Tubular skylights have a number of benefits for commercial buildings, including:

Increased Productivity:

Studies have shown that employees who work in naturally lit environments are more productive and have fewer sick days.

Increased Sales:

Customers are more likely to shop in and spend money in stores that are well-lit and have a pleasant atmosphere.

Improved Employee Morale:

Natural light can help to improve employee morale and create a more positive work environment.

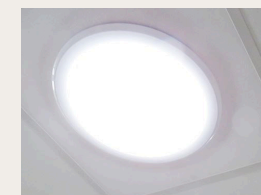

Reduced Energy Costs:

Tubular skylights can help to reduce your energy costs by providing natural light during the day. This can lead to savings of up to 70% on your lighting bill.

Reduced Environmental Impact:

Tubular skylights are an environmentally friendly way to light your building. They help to reduce your carbon footprint and conserve energy.

Enhance the ambiance of your commercial space with one of our three distinct ceiling kit options.

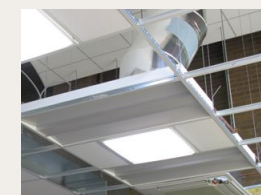

Hard Ceiling Kit

Powder-Coated, White Gloss Aluminum Ring and Diffuser fits seamlessly on drywall or drop/suspended ceilings.

Open Ceiling Kit

Aluminum Trim Ring Assembly with Diffuser fastens directly to the light tube, for open ceiling/warehouse applications.
